

Side Emitting Optical fiber

- Emitting over 15 meter without light dimming and color change
- Flexible and twistable, allowable bending radius is 10mm
- Wide wavelength range: 380-780nm
- No heat emit, No Ultraviolet, No electric, safety for Inflammable and explosive occasions, safety for under-water
- Available in fully dielectric version: 0.75, 1.0mm, 1.5mm, 2.0mm
- Shapeable and fictile, can be used in Pool, SPA, home decoration, Gardon light, etc.
